

KINDERGARTEN

WHY PEOPLE CHOOSE US?

- We work according to the program developed by our experts, which develops all eight types of intelligence
- We study English every day in English classes and we run Science classes in English with native speakers
- We use interactive whiteboards during the lessons
- We care about children's safety and comfort and we are completely open to a dialogue with parents
- We send a daily photo report of the classes and provide a weekly report in the telegram channel
- We treat every child with respect and always find an individual approach to them
- Located in a large building with a pool and spacious trespass-proofed outdoor area
- We work from 8:00 to 19:00, which is crucial for parents who work a lot
- We are constantly developing, improving and innovating!

OUR MISSION

We are created to provide quality education to every child on the basis of psychological comfort and integral personal development

AND TO ENSURE ALL THIS, WE:

- We develop all eight types of intelligence
- We help to acquire the competencies together with knowledge
- We take care about the psychological comfort of children
- We consider the process of learning as an element of development of the whole family, not just a child.

CURRICULUM «В РИТМІ Я»

The unique curriculum is developed by psychologists, educators, specialists in early development and sensory-motor integration. The program meets the state standard on preschool education and is based on the "Child" program. It is enriched by unique courses developed by our teachers and reinforced by additional classes in the intellectual block, so that knowledge and skills meet the modern needs of children and parents.

PROGRAM RESULTS:

- High academic knowledge that allows you to successfully apply and enter into any chosen school
- High level of emotional intelligence, which will help to easily adapt to new groups of people, work in a team and be successful
- Getting achievements without stress and pressure, through the main children's activities - playing
- Harmonious development in different areas, which makes it possible to identify and meet the needs of each child.

INTELLECTUAL BLOCK

● LOGIC AND MATHEMATICS

math lessons are not just addition and subtraction. Such classes develop logical thinking, attention and concentration, train memory, teach a child to analyze the information received and predict the answer. Such skills will be useful in other activities.

● SPEECH DEVELOPMENT AND READING

are aimed to competently express thoughts, this is a skill, which a person learns throughout the entire life. In our kindergarten, we pay a lot of attention to the development of speech skills: we study how to create stories, re-tell the texts read by teachers or other children, and describe pictures and objects. Later, when the children grow up, we teach them to read on their own. This skill gives them the freedom to choose a book they want to read or the world they would like to travel while reading.

● ENGLISH

three times a week children have an opportunity to play, communicate and sing songs in English. The main idea of the course is to provide children with an English-speaking environment where they can develop their speaking skills, enrich their vocabulary through the study of lyrics and songs.

RESEARCH BLOCK

- **SCIENCE**

the course that is based on the Cambridge program. While studying, children master anatomy, ecology, microbiology, botany and zoology. And all this is in English.

- **THE WORLD AROUND US**

in this course children study everything about nature and the world around them. The course consists of theoretical knowledge, observations, research and experiments. In this way, children learn the basics of chemistry and physics through practice.

- **DISCOVERY**

everything that children learn in Science and in The world around them they can consolidate while watching popular science programs in our own cinema.

CREATIVE BLOCK

- **MUSIC – THE LESSON CONSISTS OF SEVERAL DEVELOPMENT AREAS:**

- Development of vocal abilities – children sing a lot, study songs, perform them solo and in choir.
- Development of rhythmic - children perform various music exercises to form a sense of rhythm.
- Playing musical instruments - children perform group musical etudes on maracas, tambourines, xylophones, and learn to use improvised materials to create non-traditional musical instruments (for example: a paper).
- Throughout the year, children draw using traditional and non-traditional techniques.

- **They learn to work with different types of paints, colored pencils, pastels, etc.**

- **They make different crafts out of natural materials and various types of paper and plasticine.**

DEVELOPMENT OF EMOTIONAL INTELLIGENCE

Emotional intelligence is one of the most important parts of human intelligence. The emotional intelligence is responsible for self awareness and self-regulation of our own emotions, understanding of other people's emotions. It improves the skills of social interaction, adaptation in a new group of people.

THIS BLOCK INCLUDES FOLLOWING CLASSES:

- **"Successful Me"**

a psychological course in the form of mini-trainings, team games and projects. It is conducted by the kindergarten psychologist. During a year, children are acquainted with emotions, learn to understand them (self-awareness) and manage them (self-regulation), show empathy and tolerance, and learn to understand other people's emotions.

- **Course "Useful tales"**

in this course, through listening and analysis of well-known classical and modern tales, children can understand in practice how to interact with others, defend their personal boundaries, help people, etc.

- **"Curious Me"**

unique course, aimed at the development of sensory - motor integration, sensory sensitivity, spatial orientation, fine and gross motor skills.

PHYSICAL DEVELOPMENT

FUNCTIONAL TRAINING

- Physical education with a balanced cardio load
- Exercises for the prevention of flat feet and scoliosis
- Exercises to develop endurance and well-being
- On sunny days, all training takes place outdoors.

SWIMMING

is the easiest way to improve the cardiovascular system, develop muscles, coordination and improve mood.

INFRASTRUCTURE

CHILDREN`S ROOMS

The furniture is designed so that toys and teaching materials are freely available to every child.

ASSEMBLY HALL

The spacious assembly hall empowers to hold grand parties.

INFRASTRUCTURE

OUR OWN KITCHEN

Large kitchen, allows us to provide first-class food. We cook fresh meals in our own kitchen every day.

We take into account the individual nutritional needs of your child (diet, gluten-free, lactose-free menu).

MEDICAL BLOCK

Well-designed medical unit with a separate room, where a child who feels unwell can safely stay (under the supervision of a nurse), allows to take care of the health of children.

INFRASTRUCTURE

SWIMMING POOL

Exercises in the pool allow you not only to develop muscles and lungs, it is a wonderful relaxation and fun games with friends. In addition, under the supervision of a professional coach, the games will not only be a fun, but also as useful as possible.

COMFORTABLE AREA

All children`s rooms, bedrooms and toilets are designed according to the standards and take into account the age of children.

INFRASTRUCTURE

WALK IN THE FRESH AIR

Specially equipped playgrounds and covered pavilions provide an opportunity for outdoor activities twice a day in any weather.

FREE MOVEMENT

Wide corridors allow several groups of children to move freely, which does not create jams when going in or out for a walk.

NUTRITION

- In our kindergarten, children eat 5 times a day: breakfast, fruit snack, lunch, afternoon tea and dinner.
- The menu is designed and prepared under the guidance of the chef of the Kyiv Gastro-bar restaurant!
- The daily diet is balanced and tailored to children's tastes. Lots of vegetables and fruits are included, as well as fish, meat and yoghurt.
- Food is prepared in our own kitchen 5 times a day, just before the delivery of products to the children`s rooms. Food is cooked using a convector, which helps to preserve as many nutrients as possible. The products in the kindergarten are always of first-class quality and very fresh. Most items do not linger in the kitchen for more than 24 hours. Delivery takes place 5 times a week.

INDIVIDUAL NEEDS OF EACH CHILD

A gluten-free and lactose-free menu has been developed and approved in the kindergarten. In addition, if a child has any other allergies, it is possible to replace any products with those that are allowed by a prescribed diet.

PRESCHOOL (0 CLASS)

HOW IS THE SCHOOL DAY DESIGNED?

All the main intellectual classes are held up until lunch time: mathematics, literacy, reading, the world around us, experiments, English, Science and Math.

In the afternoon all additional courses and studios: mnemonics, creative +, Speaking club, literary club, theater studio and aikido or choreography to choose from.

WHAT PROGRAM TO TAKE?

The format of classes is similar to school lessons, but shorter - 30-35 minutes with longer breaks between them. The program is designed to combine a play and productive preparation for school. Classes are planned in such a way that the activities are constantly changing. There is more time for play moments during classes compared to that in the first class.

FEATURES

There is no daytime sleep in PreSchool, but there is a time for a rest and quiet games in the middle of the day. The program also includes sightseeing visits, workshops and school quests, sports relays and competitions. The main purpose of PreSchool is a psychological and emotional preparation for school in a comfortable format. The school preparation format allows us to create an environment in which children gain a positive learning experience and soft skills, that will be useful to them when entering and studying at any school.

MAP OF THE DAY

- **8:00-8:30** – reception of children
- **8:30-9:00** – breakfast
- **9:15-9:45** – 1 lesson
- **10:00-10:15** – fruit snack
- **10:15-10:45** – 2 lesson
- **11:00-11:30** – 3 lesson
- **11:30-12:30** – walk
- **12:40-13:10** – 4 lesson
- **13:15-13:45** – lunch
- **13:45-14:45** – free time
- **15:00-15:40** – free time / studio / club / individual work
- **15:40-16:20** – free time / studio / club / individual work
- **16:20-16:40** – noon
- **16:50-17:50** – walk
- **18:00-18:40** – additional classes
- **18:40-19:00** – dinner

**PRIMARY SCHOOL
1-4 CLASS**
